

Skincare & Hair

Ayurvedic topical protocols — batch system

Weekly Schedule

Day	Hair Mask	Face Mask	Body Ubtan	Leave time
Wednesday	✓	✓	✓	Hair 30–45 min · Face 10–15 min · Body 5–10 min (pre-shower)
Sunday	✓	✓	—	Hair 30–45 min · Face 10–15 min

Day-Of Assembly — 2 Minutes (Always Fresh)

Step	Action
Night before (or 30 min before)	Move 1–2 aloe cubes + 1 fenugreek cube (hair only) from freezer to fridge to thaw.
At time of use	Scoop dry mix from jar → add thawed cubes → add oil → mix into paste. Done.
Never pre-assemble	Wet + dry combined will ferment within hours even refrigerated. Assemble only when you're about to apply. No weekly batch of mixed paste.

The 2-minute prep IS the batch payoff — the heavy work (jars + cubes) is already done. You are just scooping and combining.

Per-Application Recipe

Protocol	Dry mix	Wet cubes	Oil	Extra
Hair Mask	2 tbsp Dry Hair	1 fenugreek cube (thawed) 1 aloe cube (thawed)	1 tbsp coconut (melted)	3–5 drops Rosemary EO mixed into oil first

Face Mask	1 tsp Dry Face	1 aloe cube (thawed) or rose water to bind	Tiny drop coconut (dry skin only)	Avoid eye area. 10–15 min.
Body Ubtan	2 tbsp Dry Body	1 aloe cube (thawed)	1 tbsp coconut or sesame oil	Apply to damp skin, circular motions. Scrub off in shower.

Hair mask: scalp first, massage 2–3 min, then through lengths. Rinse while still slightly damp — do NOT let fully dry/harden.

Dry Mix Jar Recipes

Jar	Ingredient	Amount
DRY HAIR MIX	Amla powder	4 tbsp
	Curry Leaf Powder (air-dried)	1 tsp
	Rotating powder — see 3-month cycle below	4 tbsp
	Fenugreek powder (backup if no cubes)	2 tbsp
DRY FACE MIX	Besan (chickpea flour)	4 tbsp
	Amla powder	2 tbsp
	Turmeric	1 tsp
	Bay Leaf Powder (tejpatta)	¼ tsp MAX
DRY BODY MIX	Besan (chickpea flour)	6 tbsp
	Amla powder	2 tbsp
	Turmeric	1.5 tsp
	Neem powder (Month 3 only)	3 tbsp

3-Month Hair Powder Cycle (the 4 tbsp rotating slot)

Month	Powder	What it does
Month 1	Brahmi (<i>Bacopa monnieri</i>)	Reduces scalp inflammation, strengthens shaft, cortisol-driven hair loss
Month 2	Bhringraj (<i>Eclipta alba</i>)	Stimulates follicles, reduces shedding
Month 3	Neem (<i>Azadirachta indica</i>)	Antifungal, anti-dandruff, clears scalp bacteria → also add 3 tbsp Neem to Dry Body Mix this month

Cube Consumption (per week)

Protocol	Freq/week	Aloe cubes	Fenugreek cubes
Hair mask	2× (Wed+Sun)	2	2
Face mask	2× (Wed+Sun)	2	0
Body ubtan	1× (Wed)	1	0
TOTAL / week		5	2

3-month supply: ~65 aloe cubes (5 tray batches from 5 large leaves) · ~26 fenugreek cubes (rebatch every 4–6 weeks from 4 tbsp seeds).

Batch Cadence — What's 3-Month vs Monthly

Item	Batch every	Shelf life	Notes
Dry jars — Hair, Face, Body	3 months	Shelf-stable	One bulk prep session (~20 min). Refill your small working jar monthly from the bulk jar.
Aloe vera cubes	3 months	3–4 months frozen	5 large leaves → ~65 cubes. Do on 3-month day alongside dry jars.

Fenugreek paste cubes	Every 4–6 weeks	4–6 weeks frozen	Soak overnight before batching. Mucilage + lecithin don't survive longer freezing.
-----------------------	-----------------	------------------	--

■ Aloe — drain latex 10–15 min (stand cut-end down) before scooping gel. Aloin irritates skin. Bay leaf ¼ tsp max — sensitizer at high dose. Turmeric stains hair yellow — omit or 1/8 tsp max.
