■ **TANNIN DEADLINE — 10:00 AM. Matcha catechins block iron absorption by up to 3x. All tea/caffeine must be finished 2 hours before the 12:00 main meal.**

The Warm Start Rule

Must be consumed warm to hot — never cold before 10:00. Warm water vasodilates, stimulates peristalsis, and preps the gut for the 12:00 feeding window. Do NOT use alkaline water — it neutralises the acids needed for Agni.

Sunday Prep Shortcut

Pre-portion 7 small containers on Sunday: each holds the week's base spice. Alternates automatically — no measuring during the week. If adding Matcha, include 1 tsp in each pack.
