

3-Week Batch Session

Run every 3 weeks — 35 min/cup/person — no cooking after tadka

Night Before

Soak 4 tbsp fenugreek seeds in water overnight.

Session Timeline

Time	Step	Output
T+0:00	Setup — ingredients out, start water boiling	—
T+0:05	Pre-chop: curry leaves (½" pieces), break chili to flakes	—
T+0:08	Tadka — heat oil, mustard seeds pop → curry leaves + chili + hing → BLOOM 15–20 SEC EXACTLY → remove from heat → cool 5 min	~21 tadka cubes
T+0:15	Blanch mint + cilantro together — 10–15 SEC, ice bath, squeeze, separate into two piles	
T+0:20	Pour cooled tadka into mini tray (1 tsp per cell)	21 cubes
T+0:22	Blend Jaljeera concentrate → pour into tray	21 cubes
T+0:27	Blend cilantro chutney → pour into tray	17–18 cubes
T+0:32	Blend coconut chutney — 2 runs × 6 min each	48 cubes
T+0:44	Blend mint muddle → pour into mini tray	21 cubes
T+0:54	Fenugreek paste — drain seeds, blend immersion, pour into tray	12–14 cubes
T+1:04	Aloe topical refresh (only if running low — check freezer first)	14–28 cubes
T+1:19	Label all trays, freeze flat — do NOT stack until frozen	—
T+1:24	Cleanup	Done

Key Ratios & Rules

Item	Critical Number	Rule
Tadka bloom	15–20 sec exactly	Beyond 30 sec → alkaloids degrade. Use a timer.
Blanch time	10–15 sec	Set timer. Ice bath must be ≥1:1 ice:water.
Coconut per Vitamin A cups max	4 cups max	One run = 4 cups → ~24 cubes. 2 runs = 48 cubes.

Cube size — mini	1 tsp per cell	Tadka, mint muddle, fenugreek, ginger cubes.
Cube size — regular	2 tbsp per cell	Jaljeera, cilantro chutney, coconut chutney.
Freeze stability	3 weeks	Cilantro, coconut, Jaljeera, mint muddle.

3-Month Big Session

Run every 3 months — half day across 2 days — RS3 chill is the bottleneck

Night Before Day 1

Clear chest freezer. Soak chickpeas (5 kg) and black beans (4.5 kg) separately in large pots overnight.

Day 1 — Cook & Chill (~4h active)

Order	Task	RS3 Rule
1st	Cook chickpeas + black beans — pressure cook or boil	Chill just before 24h before freezing
2nd	Cook quinoa — 1 cup dry : 1.75 cups water, simmer 12 min	Chill in fridge 24h before freezing fast
3rd	Cook lentils — simmer 20–25 min, spread thin to cool	Chill 12–24h
4th	Freeze tofu slabs raw — slice 400g block into 4–6 slabs, flat, freeze	No chill needed
5th	Make lemon juice cubes — juice 50 lemons → ice cube trays, freeze	No chill needed
6th	Make imli (tamarind) cubes — 1 tray, freeze	No chill needed
7th	Make aloe gel cubes — drain latex 10–15 min → fillet No chill needed → tray	No chill needed

Day 2 — Portion & Freeze (~2h)

Task	Portion size	Into
Chickpeas — portion into bags	1.5 cups cooked	Flat freezer bags
Black beans — portion into bags	1.5 cups cooked	Flat freezer bags
Quinoa — portion into bags	½ cup cooked	Flat freezer bags
Lentils — portion into bags	½ cup cooked	Flat freezer bags
Freeze whole ginger knobs	~2 kg total	One large bag
Freeze peeled garlic cloves	~25 heads	One bag
Blanch + freeze cilantro (15 large bunches)	10–15 sec blanch	Bags by batch
Blanch + freeze mint (8 large bunches)	10–15 sec blanch	Bags by batch
Freeze chilies whole	All varieties	Labeled bags

■ **RS3 RULE** — chickpeas, black beans, quinoa, lentils **MUST** chill in the fridge 12–24h before going into the freezer. This is the hard bottleneck. Do not skip. The fridge needs to be fully cleared on night before Day 1 to fit everything.

Spice Jars — Refill on 3-Month Day

Check dry jars: Kashmiri chili (~50g), Turmeric (~150g), Cumin seeds (~200g), Cumin powder (~100g), Coriander powder (~100g), Black pepper whole (~100g), Ajwain (~50g), Nigella (~50g), Mustard seeds (~50g), Hing (~10g). Refill any that are below 2-week supply.
