

# 3-Week Batch Session

Run every 3 weeks — 35 min/cup/person — no cooking after tadka

## Night Before

Soak 4 tbsp fenugreek seeds in water overnight.

## Session Timeline

| Time   | Step                                                                                                                 | Output           |
|--------|----------------------------------------------------------------------------------------------------------------------|------------------|
| T+0:00 | Setup — ingredients out, start water boiling                                                                         | —                |
| T+0:05 | Pre-chop: curry leaves (½" pieces), break chili to flakes                                                            | —                |
| T+0:08 | <b>Tadka — mustard seeds pop → curry leaves + chili + hing<br/>→ BLOOM 15–20 SEC EXACTLY → off heat → cool 5 min</b> | <b>~21 cubes</b> |
| T+0:15 | Blanch mint + cilantro together — 10–15 SEC, ice bath, squeeze, separate into two piles                              | —                |
| T+0:20 | Pour cooled tadka into mini tray (1 tsp per cell)                                                                    | 21 cubes         |
| T+0:22 | Blend Jaljeera concentrate → pour into tray                                                                          | 21 cubes         |
| T+0:27 | Blend cilantro chutney → pour into tray                                                                              | 17–18 cubes      |
| T+0:32 | Blend coconut chutney — 2 Vitamix runs × 6 min                                                                       | 48 cubes         |
| T+0:44 | Blend mint muddle → pour into mini tray                                                                              | 21 cubes         |

|            |                                                          |              |
|------------|----------------------------------------------------------|--------------|
| T+0:5<br>4 | Fenugreek paste — drain seeds, blend immersion, pour     | 12–14 cubes  |
| T+1:0<br>4 | Aloe topical refresh (only if running low)               | ~14–28 cubes |
| T+1:1<br>9 | Label all trays, freeze flat — do NOT stack until frozen | —            |
| T+1:2<br>4 | Cleanup                                                  | Done         |

## Key Ratios & Rules

| Item                       | Critical Number          | Rule                                            |
|----------------------------|--------------------------|-------------------------------------------------|
| <b>Tadka bloom</b>         | <b>15–20 sec exactly</b> | Beyond 30 sec → alkaloids degrade. Use a timer. |
| <b>Blanch time</b>         | <b>10–15 sec</b>         | Set timer. Ice bath $\geq 1:1$ ice:water ratio. |
| <b>Coconut per Vitamix</b> | <b>4 cups max</b>        | One run = 4 cups → ~24 cubes. 2 runs = 48.      |
| <b>Mini cube size</b>      | <b>1 tsp per cell</b>    | Tadka, mint muddle, fenugreek, ginger cubes.    |
| <b>Regular cube size</b>   | <b>~2 tbsp per cell</b>  | Jaljeera, cilantro chutney, coconut chutney.    |
| <b>Freeze stability</b>    | <b>3 weeks</b>           | Cilantro, coconut, Jaljeera, mint muddle.       |

# 3-Month Big Session

Run every 3 months — half day across 2 days — RS3 chill is the bottleneck

## Night Before Day 1

Clear chest freezer. Soak chickpeas (5 kg) and black beans (4.5 kg) separately overnight.

## Day 1 — Cook & Chill (~4h active)

| Order | Task                                                                                                                          | RS3 Rule                                   |
|-------|-------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------|
| 1st   | Cook chickpeas + black beans — pressure cook or boil until tender                                                             | <b>CHILL 24h in fridge before freezing</b> |
| 2nd   | Cook quinoa — 1 cup dry : 1.75 cups water, simmer 12 min, spread thin in 88oz Pyrex                                           | <b>CHILL 24h in fridge before freezing</b> |
| 3rd   | Cook lentils — simmer 20–25 min, spread thin to cool                                                                          | <b>Chill 12–24h</b>                        |
| 4th   | Freeze tofu slabs raw — slice 400g block into 4–6 slabs, flat bags                                                            | No chill needed                            |
| 5th   | Juice 50 lemons → ice cube trays → freeze                                                                                     | No chill needed                            |
| 6th   | Imli-Khajur chutney — Medjool dates + Tropicana tamarind<br>→ blend → 24 qt pot → cook 15–20 min → cool<br>→ freeze (card 13) | ~96 cubes                                  |
| 7th   | Aloe gel cubes — drain latex 10–15 min → fillet<br>→ scoop → blend → tray                                                     | No chill needed                            |

## Day 2 — Portion & Freeze (~2h)

| Task      | Portion         | Into              |
|-----------|-----------------|-------------------|
| Chickpeas | 1.5 cups cooked | Flat freezer bags |

|                                                |                  |                   |
|------------------------------------------------|------------------|-------------------|
| <b>Black beans</b>                             | 1.5 cups cooked  | Flat freezer bags |
| <b>Quinoa</b>                                  | ½ cup cooked     | Flat freezer bags |
| <b>Lentils</b>                                 | ½ cup cooked     | Flat freezer bags |
| <b>Ginger knobs (freeze whole)</b>             | ~2 kg total      | One large bag     |
| <b>Garlic (freeze peeled cloves)</b>           | ~25 heads        | One bag           |
| <b>Cilantro — blanch 10–15 sec then freeze</b> | 15 large bunches | Bags by batch     |
| <b>Mint — blanch 10–15 sec then freeze</b>     | 8 large bunches  | Bags by batch     |
| <b>Chilies — freeze whole</b>                  | All varieties    | Labeled bags      |

---

■ **RS3 RULE** — chickpeas, black beans, quinoa, lentils **MUST** chill 12–24h in the fridge before going into the freezer. This is the hard bottleneck. Fridge must be fully cleared the night before Day 1.

## Spice Jars — Refill on 3-Month Day

Check dry jars: Kashmiri chili (~50g), Turmeric (~150g), Cumin seeds (~200g), Cumin powder (~100g), Coriander powder (~100g), Black pepper whole (~100g), Ajwain (~50g), Nigella (~50g), Mustard seeds (~50g), Hing (~10g).
