

# Protocol Rotations

Daily · Weekly · 4-Week Cycle

## Daily Rotations

| What                      | Mon                    | Tue                   | Wed                    | Thu                   | Fri                    | Sat                   | Sun                    |
|---------------------------|------------------------|-----------------------|------------------------|-----------------------|------------------------|-----------------------|------------------------|
| <b>Morning<br/>09:15</b>  | <b>Ajwain</b><br>¼ tsp | <b>Jeera</b><br>½ tsp | <b>Ajwain</b><br>¼ tsp | <b>Jeera</b><br>½ tsp | <b>Ajwain</b><br>¼ tsp | <b>Jeera</b><br>½ tsp | <b>Ajwain</b><br>¼ tsp |
| <b>Seed<br/>1 tbsp</b>    | Basil                  | Sesame                | Basil                  | Walnuts               | Basil                  | Pumpkin               | Hemp                   |
| <b>Heat<br/>18:30</b>     | Epsom                  | Sauna                 | Epsom                  | Sauna                 | Epsom                  | Sauna                 | —                      |
| <b>Training<br/>16:30</b> | Lift                   | VO2                   | Lift                   | Rest                  | Lift                   | Rest                  | —                      |

Green = workout days.

## Night Infusion (21:00) — pick by day type

| Infusion           | When to use                                                                         |
|--------------------|-------------------------------------------------------------------------------------|
| <b>Ashwagandha</b> | High-cortisol days · tofu-pulse days · VO2 Max (Tue) — mandatory. Do NOT use daily. |
| <b>Tulsi</b>       | Lower-stimulation recovery nights · standard rest recovery                          |
| <b>Saffron</b>     | Parasympathetic emphasis · end-of-day downshift · Week 4 washout                    |

## Weekly Rotations — pick one per category per week

| Category                         | Option A                                         | Option B                                                     | Option C                  |
|----------------------------------|--------------------------------------------------|--------------------------------------------------------------|---------------------------|
| <b>Bitter green<br/>(2 cups)</b> | Arugula<br>(high nitrate/NO)                     | Watercress<br>(PEITC / dense)                                | Kale*<br>(massage 60 sec) |
| <b>Dry Podi<br/>(1 tbsp/day)</b> | Hormonal Buffer Podi<br>(flax + moringa + cumin) | Vascular Podi<br>(sesame + curry leaf + bay<br>leaf + cumin) | —                         |

|                               |                                                              |                           |   |
|-------------------------------|--------------------------------------------------------------|---------------------------|---|
| <b>Chutney<br/>(1–2 tbsp)</b> | Coconut<br>(MCT + curry leaf)                                | Cilantro/Mint TRP         | — |
| <b>Recovery<br/>extras</b>    | <b>Cacao + vanilla<br/>(2–3×/week MAX —<br/>never daily)</b> | Plain bowl<br>(rest days) | — |

**\* Tofu: 2×/week ceiling — never more. Phytoestrogen accumulation risk.**

## 4-Week Cycle — what shifts each week

| Week        | Theme                              | Morning drink                               | Special rules                                                                                                                 |
|-------------|------------------------------------|---------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| <b>Wk 1</b> | <b>Baseline &amp; Anti-inflam.</b> | Ajwain / Jeera basic rotation               | No clove. Establish timing. Follow daily anchors strictly.                                                                    |
| <b>Wk 2</b> | <b>Antimicrobial Peak</b>          | Add Clove 2 mornings (replace 2 Jeera days) | Clove only on Day 9 + Day 12. Sulfur emphasis. Watch gut.                                                                     |
| <b>Wk 3</b> | <b>Vascular &amp; Nitric Peak</b>  | Ajwain / Jeera basic rotation               | Arugula/Watercress priority for NO. Omega-3 week. Monitor logs.                                                               |
| <b>Wk 4</b> | <b>Washout &amp; Reset</b>         | Ajwain / Jeera basic rotation               | REMOVE all heavy antimicrobials. Tulsi/Saffron at night. Optional: Detox Week (chlorella + double cilantro + extra tamarind). |

**■ Daily anchors never rotate: Broccoli microgreens · Fresh cilantro · Turmeric + black pepper · Ginger · Brazil nut (1–2/day).**
